

Mrs. Cowitz Host To Rugby W.I.

With an attendance of 14 the monthly meeting of the Rugby Women's Institute was held at the home of Mrs. A. Cowitz. After the usual opening exercises were held the business for the day was taken up. A letter of grateful thanks from a family in Hungary was received, expressing gratitude for a "lavette" sent them some months ago. As it was written in Hungarian it was translated by a friend of one of the members.

An article on Religious training in our schools was given by Mrs. Korsch, and a contest was put on by Mrs. Vipond.

The meeting closed with the National Anthem and lunch followed. The October meeting will be held at the home of Mrs. H. Hoesegood.

Mr. and Mrs. Tom Morris and family returned Tuesday from a four-day holiday trip to Waterton Lakes Park, where they visited with Mr. and Mrs. J. Wellman and family. Enroute they took in the final Purdy 99-Edmonton Ekim baseball game Friday night in Calgary and the Air Show at the Municipal airport on Saturday. Tom reports very little harvesting done in the south country.

LIGHT FROST LAST WEEK

Friday and Saturday nights light frosts were reported in the Didsbury district and damage was done to gardens both east and west of town. Whether or not the frost was severe enough to damage late maturing grain is hard to determine at this time, although it is feared that the late crops in the Bergen and Fallen Timber areas may have been damaged by the frost.

Dyck Orchard Has Good Fruit Crop

Will the Didsbury district eventually become the Okanagan of Alberta? Perhaps not but A. Dyck who lives in East Didsbury and a few other local horticulturists are proving that apples can be successfully grown here.

Mr. Dyck put in about 75 fruit trees of all descriptions in 1945 and this year the trees are laden with fruit. Not only will crabapples be found in Mr. Dyck's orchard, but regular large-sized apples are ripening on the trees.

There are numerous crabapple trees in Didsbury and more are being planted each year. This past season has been ideal for growing crabapples and most local trees are laden with fruit.

Who knows. Someday the growing of apples may take the place of grain growing and mixed farming in the Didsbury district.

Large Attendance At Cremona School

(Special to the Pioneer)

School opened at Cremona as usual on September 1st with the largest registration since the new school was opened in 1945. This year the Byron school southeast of Cremona was closed and pupils are being conveyed to Cremona by van. Because sixteen beginners appeared on opening day it was necessary to call in another teacher.

The former Elmwood school building, which was moved into Cremona last fall, houses grades one to four. The building was put on a foundation and the full-sized basement was equipped to accommodate classes. Cloak rooms and a library were built in upstairs.

The teaching staff this year consists of Mr. Robert L. Reid, principal, Cremona; Miss Gwen Wolfe and Mr. W.H. Dowley, A.C. high school; Mrs. Hilda Friswell, Mrs. Doris Dinzy, both of Cremona.

Driving the van from Garfield is Mr. Orville Tonnies; from Byron, "Shorty" Bennett; and from Elmwood district, Mr. Dan Russell.

Mrs. Robertson congratulated the group on their splendid enthusiasm and invited anyone who wished, to be guests at the September meeting of the Westcott W. L. being held at the home of Mrs. Bob Dubois this Thursday, September 9.

This is the first W.L. group Mrs. Robertson has been called upon to form since becoming district convener, although she has formed several girls' clubs, so she will be watching the progress of the Melvin group with interest. Everyone enjoyed Mrs. Robertson's visit and are anxious to make the first Melvin W. L. a real success.

Shoots Niagara Rapids In Second Barrel Trip

"Red" Hill, veteran riverman of Niagara Falls rode the Niagara River rapids Monday in a steel barrel. He ended his five-mile trip after twice becoming trapped at treacherous points in the river.

Hill reached the steamship docks at Queenston four hours and 15 minutes after starting the course near the Whirlpool Rapids bridge below Niagara Falls.

Hill's trip was halted temporarily shortly after the start when the barrel was caught in the Niagara whirlpool. His three brothers freed the cigar-shaped barrel from the fast-whirling current, and opened the barrel to let Hill have fresh air. After bailing it out, Hill re-entered and continued downriver.

Three miles from Queenston between the whirlpool and Niagara Glen, he again became trapped in an eddy. It was the same eddy in which his father—"Red" Hill Sr.—was trapped for several hours almost 20 years ago on one of his two trips down the river.

Hill was freed again by his brothers, and the barrel drifted to the Queenston docks where it was picked up and towed ashore. He told spectators who waited for him that the trip was "much worse" than the one he made in 1945. The hammock in which he rides inside the barrel had broken and he was severely bruised.

The specially-constructed barrel was towed to the docks, and Hill, soaking wet, was helped out. He was immediately besieged by a

Pete Schumaker is First to Deliver New Crop Wheat

Harvesting is now general over the entire district and with ideal weather the past ten days considerable grain is now in stook and swath.

Quite a lot of rye has been cut and threshed, but the first load of 1948 spring wheat was delivered to No. 2 U.G.G. elevator on Friday, September 3rd by Pete Schumaker who farms east of town. According to the elevator agent, Les LeGrand, the grain was Thatcher and weighed 64½ pounds to the bushel. It was stooked and threshed.

Crops generally in the Didsbury area are good this year, although somewhat later than usual. Farmers in the hauled strip along the Dog Pound report that the second crop of barley stands over three feet high and is headed out and filling well. Absence of heavy frost will determine whether or not this hauled area will produce sufficient grain to recompense the farmer for his season's work.

Westcott District Gardens Hard Hit By Frost

Most of its spent Labor Day surviving the frost damage of the two nights previous and discovered gardens were hard hit, and it is feared some late crops will reveal the damage when harvested.

Harvesting has begun but where the hail went through last July its either a total failure or in need of warm weather to make second growth ripen up.

School reopened last Wednesday at Westcott with Mrs. A. Korschuh in charge. We understand she has all the grades to teach except grade 6 and one beginner is little Victor Nevada.

Mr. and Mrs. Linden Jacobsen accompanied their in-laws, Mr. and Mrs. J. Templeton, as far as Calgary on Saturday when the latter were returning to their home in Vancouver.

Mr. J. Porath of Westcott, Alberta, is being visited with his grand daughter, Mrs. Herbert Goetjen, this past week.

Mr. and Mrs. R. Burton of Calgary spent the Labor Day week end at the home of Mr. and Mrs. Linden Jacobsen.

Rose Benson and her cousin Le Roy are attending school in Didsbury this term.

Not much change has taken place as far as other pupils are concerned except for the new pupils attending high school in Didsbury.

Mr. L. Patmore, a former teacher of Westcott school, called in one day last week. He found a lot of new faces but none of his former pupils. He inquired about many of his former Westcott school pupils and it appeared that he had not forgotten them.

Mr. and Mrs. H. Porath and family and Mr. J. Porath of Whitecourt, spent some time last week visiting relatives in the Didsbury district. Mrs. H. Goetjen is a niece of the aforementioned.

crowd of autograph-hunters, Police, who had tried to prevent Hill from making the trip, made no attempt to arrest him.

Pays To Be Late Says Banker In California

Inglewood, Calif.—Two men entered the office of the Seaboard Finance Company recently, herded employees into a back room and demanded someone open the safe.

Only two persons know the combination. One of them, Manager Henry Geddling, was late for work for the first time in months. The other, Mrs. Blanche May, had a flat tire en route to work. So the would-be robbers left empty-handed.

YOU'LL WIN

A decrepit horse was being offered to the highest bidder. An old farmer watched as a young man in riding breeches bid for the animal. When the sale was complete he turned to the young fellow. "Tell me, what on earth are you going to do with that nag?" he asked.

"Oh," replied the cocky young sportsman "I'm going to race him." The farmer took another look at the horse. "Well, you'll win," he said.

NEW USE FOR BUCKWHEAT

The United States Agricultural Research Administration has announced that green buckwheat has been found to be a source of a recently discovered important drug called rutin. The drug, used in the treatment of hemorrhagic diseases, is being made in the United States by 15 manufacturers from buckwheat leaf meal for the production of which six processors are drying buckwheat. The 1948 crop for this purpose, is estimated to be 50 thousand acres, representing a cash income of \$2 million to the farmers.

PLAN TO KEEP A CHECK ON SPEED

More rigid enforcement of speed limits on Alberta highways was promised recently in an announcement from the Alberta highway traffic board at Edmonton. A squad of uniformed highway traffic board police, equipped with motorcycles, will patrol all main roads to check on observance of speed limits and other safety factors.

Two of the new speed enforcement squad will be stationed at Edmonton, two at Red Deer, two at Calgary and one at Lethbridge. They will augment the present staff of ten traffic board inspectors stationed in various parts of the province.

MEATLESS DAYS AT NANTON RIFLE CLUB

(The Nanton News)

Putting teeth into his contention that the Rifle Club eats too much, Spark Plug Cummings cut the rations to the bone last Monday night. He served one course only, plain bread-donuts with extra thin rims and large holes. Not since Tanglefoot Armstrong and Oggy Parsons fed the multitude on a can of sardines, has the gun club had to get by on such meagre fare. Slim Armstrong was so weak from hunger that he had to be carried home. Al Nesbitt said it was had enough to have to spend a whole evening with such scrubby company, and if he couldn't get a good square meal out of it, he would stay home in future.

Again the hundreds were scored by the Big Three: Ray Window, Boomer, Wheat Germ Trull and Warble Fly Watt. Their steady performance in the face of adversity has marked them as real Bisley material, men who can be really counted on to shoot the bull. Charlie Follard allowed his way to the front in two stiff games, and President Read, who is anything but subtle, kindly suggested that it would be a good time to pay last year's dues. Sawfly Stapley claims that after playing snuff at the gun club this year, he often wishes he were back on the farm where even the hogs have a certain amount of manners. This was too much for Harry Dwell, and he suggested that from then on, unless the players could not speak kindly to one another, they should not speak at all. The session closed with half an hour of silence.

Official scores were checked by Alex Anderson, who is the only member who can count above 50.

Britain Buys Canadian Jersey Cattle

"Bringing coals to Newcastle" was paralleled recently when flour Canadian-bred Jersey cattle, one bull and three in-calf heifers were sold to English buyers. The United Kingdom Ministry of Agriculture recognizes the high quality of Canadian Jersey cattle and allocated \$224,000 for the shipment, which included a consignment of Holstein cattle for the British market.

A JOB GETTER

Junior, aged 14, set out to get a job and asked the local village wit for one.

"What can you do, son?" asked the wise guy.

"Almost anything," replied junior.

"Can you file smoke," asked Mr. Wise Guy.

"Yes, sir," replied Junior, "if you'll screw it in the vice for me."

HIDE DEMAND SAGS

Fewer cows are having their hides tanned because fewer Canadians are beating a path to the shoe stores, according to a Financial Post report. But more and more cattle are coming to the meat market. Therein lies a situation that may knock hide prices down, drop leather and shoe prices to a point where sales might begin to pick up again.

In the meantime packers, tanners, shoe manufacturers and shoe retailers are going cautiously on future commitments. Number of "wetings"—hides in first stage of becoming leather—is down 30 to 40 per cent from last August. This follows a decline in shoe sales that registered a 16.4 per cent drop for the first six months of 1948 as compared with same period of last year. (80% of leather goes into shoes).

The southwest corner of Alberta is likely to produce a wheat crop of 27.9 bushels to the acre, highest of any crop district in the province.

Bob Edwards Speaks His Mind on Crime

CALGARY EYE OPENER, 1904 Mr. King and Cashel

Rev. Mr. Kirby has been taking up the history of Cashel the murderer rather curiously. Had there been a panic last Sunday in the opera house while Rev. Mr. Kirby was exploiting Cashel for the edification of the vast crowd of curious men the results might have been serious. The walls fairly bulged with the squeeze. When a minister preaches Hell he should have an asbestos curtain ready to drop.

Mr. Kirby certainly showed much kindness to Cashel during his incarceration, and helped materially to mitigate the terrors of the scaffold. A high estimate has been put on this labor of love, but his widely advertised sermon served the double purpose of ingenious advertising and a colossal scoop.

We had ourselves intended making a try for that manuscript of Cashel's life but Colonel Sanders took possession of it and suppressed it. It would have made a tremendous hit. Another newspaper man wanted to get it to print in pamphlet form, turning over the profits to Cashel's mother. We both got left. It remained for the condemned man's spiritual adviser, who naturally had the inside track, to get some exclusive copy and work it up for the pulpit. It was a sparkling idea.

Some think it was unseemly to use the defunct Cashel as an aid to fill the house but we do not agree. Newspaper men try to get "picy" stuff. Clergymen have the same privilege in their own line. Mr. Kirby was entitled to use his stuff for all he was worth, which he did.

Cashel's advice was excellent as regards cigarettes. Anyone who smokes these abominable and enervating little paper tubes should certainly be hanged. His words on the evil of drinking and gambling were also good. But the question arises if Cashel by some fortuitous stroke of fortune had been liberated the night before his execution, would the good work of Mr. Kirby stuck? The danger passed, would he not have walked jauntily up town rolling a cigarette?

FORECAST 372,000,000 BUSHEL WHEAT CROP

Canada's 1948 wheat crop has been estimated at 372,000,000 bushels, or 31 million bushels greater than last year, but about 35 million below the 1938-47 average. The estimated average yield per seeded acre is 15 bushels, compared with 14 bushels last year, and the ten-year average of 17.1 bushels.

CANADIAN FOREIGN TRADE BREAKS RECORD

Canadian foreign trade reached record proportions during the first half of 1948, with total merchandising imports and exports amounting to \$2,621 million, an increase of \$85 million over the corresponding period of 1947.

Trading conditions in June, however, were less favorable than in the preceding five months of this year, mainly as a result of the drop in wheat and flour shipments to the United Kingdom, following last year's short crop.

One Wonder.

The mere fact a murderer being caught and hanged should not enhance the value of any moral advice he has to offer. Had Cashel been acquitted or sentenced to a term of imprisonment nobody would have cared a hoot for his advice on booze, cigarettes, Nick Carter, or gambling.

Radiolife the Hangman

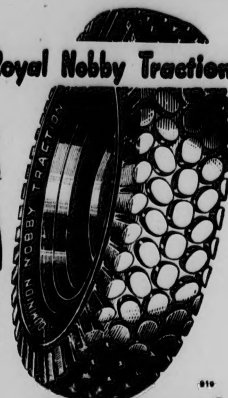

In connection with the recent hanging of Cashel, was it approved by authorities and their idea of decency that Radiolife, the hangman, should be permitted to hang around hotels in an offensive state of intoxication, boasting of his exploits with the rope, humming drinks and playfully feeling peoples necks with his fingers? This notorious character made a disgusting exhibition of himself, with his loud voice bragging and his coarse jests. He should have remained quietly down at the barracks and left after the execution or have had the good taste while in town to conduct himself with propriety.

Besides what right had he to peddle off pieces of the rope without a hawkers license? The authorities could have made him cough up \$25 for engaging in this unseemly traffic.

Much sympathy has been expressed for Cashel's kin and kin. Is there none left for the family of the murdered man Russ Belt?

Fallen Timber News

The Fallen Timber Busy Bees met at the home of Mrs. Wannamaker on September 1st with ten ladies present. Owing to the absence of the president, the vice-president, Mrs. Moncey, presided.

After the meeting was called to order a song was sung by the group. Minutes were read and a report heard from the delegate sent down to purchase the piano. It was decided that the Busy Bees would provide cushions for the school desks. It was also decided to hold a birthday party for each member when her birthday came due. After the business meeting a delicious luncheon was served.

The Community Sunday School and Busy Bees of Fallen Timber united in an effort to raise sufficient money to purchase a piano for the Fallen Timber school and last week their efforts were crowned with success and a piano has finally been installed in the school.
